It’s 11:00 PM. What are these Students Doing in the Physiology Lab?

Believe it or not, they’re learning physiology.

Who said learning can’t be fun. Not iWorx. In fact, iWorx has made fun and excitement an integral part of their physiology labs since 1991.

iWorx physiology teaching solutions are focused on the student’s learning experience. Hardware, software, and courseware all work seamlessly together to keep students engaged with the lab and not distracted by quirky transducers, recorders, black boxes and connectors. And with data recording and analysis software that is point-and-click easy, students can learn and satisfy their curiosity at their own pace, even into the wee hours of the morning.

Thousands of students from hundreds of universities and colleges use iWorx teaching solutions to learn physiology in more interesting ways. Let your students have some fun too.

Schedule an iWorx lab demonstration at your site and receive the iWorx Web Teaching Tools CD free ($300 value).

A Signature Below Certifies Compliance with the Following Statements

Copyright Transfer. In consideration of the acceptance of the above work for publication, I do hereby assign and transfer to the American Physiological Society (APS) all rights, title, and interest in and to the copyright in the above-titled work. This includes preliminary display/posting of the abstract of the accepted article in electronic form before publication. The Journal grants the Author permission to provide a copy of the accepted manuscript to NIH upon acceptance for Journal publication, with public release in PubMed Central twelve months after final print publication by the Journal. In cases in which obtaining a signature from each author would delay review, the corresponding author’s signature is sufficient provided that the corresponding author understands that he or she signs on behalf of all of the authors who have not signed the form. It should also be understood by all authors that the corresponding author has signed the manuscript submission form as their proxy. If any changes in authorship (order, deletions, or additions) occur after the manuscript is submitted, agreement by all authors for such changes must be on file with APS. An author's name may only be removed at his/her own request. For commercial companies, authorized agents’ signatures are allowed for copyright transfer, but the corresponding author must sign for authorship responsibilities as stated below. Material prepared by employees of the US Government in the course of their official duties cannot be copyrighted, and work prepared by employees of the British or British Commonwealth government in the course of their official duties is subject to Crown Copyright, and cannot be transferred to the APS. Nevertheless, authors must sign the form to indicate acceptance of all terms other than copyright transfer.

Authorship Responsibilities. I attest that:
1) the manuscript is not currently under consideration, in press, or published elsewhere, and the research reported will not be submitted for publication elsewhere until a final decision has been made as to its acceptability by the journal (posting of submitted material on a web site may be considered prior publication—note this in your cover letter);
2) the manuscript is truthful original work without fabrication, fraud, or plagiarism;
3) I have made an important scientific contribution to the study and am thoroughly familiar with the primary data; and
4) I have read the complete manuscript and take responsibility for the content and completeness of the manuscript and understand that I share responsibility if the paper, or part of the paper, is found to be faulty or fraudulent.

Conflict of Interest Disclosure. All funding sources supporting the work and all institutional or corporate affiliations of mine are acknowledged. Except as disclosed on a separate attachment, I certify that I have no commercial associations (e.g., consultancies, stock ownership, equity interests, patent-licensing arrangements) that might pose a conflict of interest in connection with the submitted article, and that I accept full responsibility for the conduct of the trial, had full access to all the data, and controlled the decision to publish.

☐ I have a potential conflict to disclose and will provide the form from http://www.the-aps.org/publications/journals/conflict.pdf.

Color Figures. A subsidized fee of $350 per color figure is available if all publication requirements are met. Color figures that are scientifically necessary are free for first or last authors who are APS members in good standing. Please provide membership information if applicable. Unnecessary color figures (e.g., color line or bar graphs) are not permitted in the APS journals.

☐ Please check if this article was written as part of the official duties of an employee of the US Government.
☐ Please check if this article was written as part of the official duties of an employee of the British or British Commonwealth government.

Commercial company agent's signature (if applicable) __________________________

Authors should sign in the same order as on the manuscript title page (fax signatures, multiple forms acceptable). For more than 6 authors, use an extra sheet.

CALL FOR NOMINATIONS
for the Editorship of

Physiological Reviews

Nominations are invited for the Editorship of Physiological Reviews to succeed S. L. Hamilton, who will complete her term as Editor on December 31, 2008. The Publications Committee plans to interview candidates in the Spring of 2008.

Applications should be received before February 15, 2008.

Nominations, accompanied by a curriculum vitae, should be sent to the Chair of the Publications Committee:

Kim E. Barrett, Ph.D.
APS
9650 Rockville Pike
Bethesda, MD 20814-3991
CALL FOR NOMINATIONS

for the Arthur C. Guyton Physiology Educator of the Year Award

The Teaching Section of the American Physiological Society invites you to nominate a fellow physiology educator for the 16th Annual Arthur C. Guyton Physiology Educator of the Year Award.

Nominees must be faculty members of accredited colleges or universities and members of the American Physiological Society (APS). The Selection Committee will look for independent evidence of the following:

- Excellence in classroom teaching over a number of years at undergraduate, graduate, or professional levels.
- Commitment to the improvement of physiology teaching within the candidate’s own institution.
- Contributions to physiology education at the local, community, national, or international levels.

In the past, all nominees have shown excellence in teaching and have made significant contributions in student advisement, graduate education, and/or curriculum design and reform at their institution. Consequently, the activities that distinguish a candidate in the rankings include the following:

- Outreach activities at the state, national, or international level.
- Contributions to education through APS activities.
- Authorship of peer-reviewed educational journal articles.
- Authorship of widely disseminated publications such as commercially produced textbooks, laboratory manuals, or software.

Each nominee must be nominated by a member of APS. The Nominator should send a letter of support outlining the qualifications of the nominee to the Chair of the Award Selection Committee, no later than December 21, 2007. The Candidate will be asked to submit a portfolio that includes the following:

- A statement of teaching philosophy and achievements
- Summaries of student evaluations, teaching honors, and awards
- Evidence of education-related activities outside the classroom
- Letters of support from colleagues and, if desired, students

The Committee requests electronic submission of all material by January 16, 2008.

The person selected will receive the award during the APS business meeting at the April 2008 annual meeting of APS (Experimental Biology 2008, April 5–9, in San Diego, CA). The Arthur C. Guyton Physiology Educator of the Year will receive a framed, inscribed certificate, an honorarium of $1,000, and expenses of up to $750 to attend the meeting. The awardee is requested to write an essay on his/her philosophy of education for publication in The Physiologist.

The Chair of the Guyton Award Selection Committee is:

    Roy D. Russ, Associate Professor
    Division of Basic Medical Sciences
    Mercer University School of Medicine
    1550 College St.
    Macon, GA 31207
    E-mail: russ_rd@mercer.edu
Advances in Physiology Education

Scope of Journal

Advances in Physiology Education is dedicated to the improvement of teaching and learning physiology both in specialized courses and in the broader context of general biology education. Advances also aims to increase recognition of physiology education as a scholarly activity. The journal publishes peer reviewed descriptions of new strategies for teaching in the classroom and laboratory, essays on education, and review articles for teachers on our current understanding of physiological mechanisms, new technology for teaching and research, and pedagogy. Columns provide reviews of textbooks and other learning resources, annotated bibliographies of relevant articles from other journals or web sites, profiles of physiology educators, and notices and reports of meetings of interest.

Authors are required to submit papers online at www.apscentral.org.

Reader & Author Benefits

- Fully searchable text, including PubMed
- Rich color and sharp resolution of figures
- Editor’s home Page at: www.the-aps.org/publications/advan.org
- Accepted research papers are now published online within a few days after their acceptance
- FREE access to the extensive collection of back issues available online 12 months after publication
- FREE e-mail notification of new content as it becomes available
- Perpetual/Electronic Archiving of the LOCKSS and CLOCKSS systems preserves the electronic content of all APS journals

To start your SUBSCRIPTION, e-mail: subscriptions@the-aps.org
To submit your MANUSCRIPT, go to: www.apscentral.org

FURTHER INFORMATION: E-mail: subscriptions@the-aps.org, Call 301-634-7180, Fax 301-634-7418, or mail to The American Physiological Society, 9650 Rockville Pike, Bethesda, MD 20814-3991 (USA)
Tailor-made experiments to suit your lab.

PowerLab LabTutor Systems

Wanting more efficient laboratory practicals and captivated students? ADInstruments PowerLab® LabTutor® Systems integrate experiment protocols, data acquisition and student reports, making it easier to complete experiments and understand scientific principles.

Now with the introduction of LabAuthor™, you can tailor any LabTutor experiment to suit your course curriculum. No matter which way you cut it, no other teaching system offers as much:

- Ready-to-use physiology, biology and pharmacology experiments
- Plug and play functionality for immediate data collection
- Scientific principles, instructions, real-time data acquisition, analysis and report submission within one software interface
- Robust, student-proof hardware
- And now, the ability to create and modify LabTutor experiments

What’s even better is the unbelievable value for money and long-term savings. So you get the best for your classroom, without losing the shirt off your back.
