CALL FOR NOMINATIONS

For the Arthur C. Guyton Educator of the Year Award

The Arthur C. Guyton Educator of the Year Award supported by Elsevier ($1,000 cash prize, complimentary registration to Experimental Biology, a framed, inscribed certificate, and up to $750 in travel reimbursement to the Experimental Biology meeting) recognizes a full-time faculty member of an accredited college or university and member of the APS who has independent evidence of: (1) excellence in classroom teaching over a number of years at the undergraduate, graduate, or professional levels; (2) commitment to the improvement of physiology teaching within the candidate’s own institution; and (3) contributions to physiology education at the local community, national or international levels. The awardee is requested to write an essay on his/her philosophy of education for publication in The Physiologist.

The typical nominee will have shown excellence in teaching and have made significant contributions in student advisement, graduate education, and/or curriculum design and reform at their institution. The activities that distinguish a candidate in the rankings include outreach activities at the state, national, or international level; contributions to education through APS activities; peer-reviewed educational journal articles; and widely disseminated publications such as commercially produced textbooks, lab manuals, or software.

Nominations Process: Each nominee must be nominated by a member of APS. The nominator must upload a letter of support outlining the qualifications of the nominee no later than January 8, 2012. To upload documents, please visit the APS Award Module at https://www.the-aps.org/awardapps/login/index.cfm. Finalists will be contacted and asked to provide further information.
Journals of the American Physiological Society

The APS Journals

Key Facts!

One Physiology Collection—to Multiple Disciplines

BIOSIS PREVIEWS • ISI Web of Science • MEDLINE and PubMed:
APS Journal content is indexed through all of these excellent services.

HighWire: APS journals are hosted by HighWire Press (a division of Stanford University Libraries), the leading ePublishing platform for high impact, peer-reviewed content, with 1,465 journals.

eTOCs (electronic Table of Contents): Receive instant notification of new APS content.

CiteTrack: Use your own criteria and keywords to be notified of newly posted APS journal content.

RSS Feeds: Another great way to receive a notification of newly posted APS journal content.

Free Necessary Color: Regular or Student members of APS who are first or last authors of articles in any of the APS research journals get free scientifically necessary color.

FREE Online Access to the extensive collection of back issues 12 months after publication.

AuthorChoice: Authors can choose to pay a fee on top of regular author fees and have their articles publicly available upon publication.

Articles in Press: Instant, subscription-based access to newest research (post-acceptance, pre-copyedited) in original manuscript format.

Legacy Content: Online package of over 100 years of historical scientific research from 13 American Physiological Society research journals going back to the first issue of each of the APS journals.

Manuscripts online within days of acceptance!
WE ARE ALL PHYSIOLOGISTS

OUR RESEARCH INCLUDES:

• Biochemistry  • Cell Biology  • Genomics
• Biomathematics  • Comparative & Evolutionary  • Medical & Veterinary Sciences
• Biophysics  • Molecular Biology

APS Members are individuals worldwide whose work focuses on a wide variety of disciplines devoted to human and animal health and function—including systems biology, genomics, translational research and all other life sciences.

These members possess advanced degrees (Ph.D., D.V.M., M.D., etc.). However, individuals who hold a masters degree will be considered on a case-by-case basis. The majority of this international membership hold doctoral degrees in physiology, medicine, or other health professions; and they are employed in universities, hospitals, industrial organizations, medical schools, private foundations, and government.

APS also has Student and Affiliate members. Visit our web site at www.the-aps.org for more information and a detailed list of membership benefits.

**Microcirculation 2nd Edition**
Edited by: Ronald Tuma, Walter Duran, Klaus Ley
This reference consolidates the essential concepts and new developments of microvascular physiology and offers critical assessments of the status of current ideas and techniques.
ISBN: 9780123745309
List Price: $199.95 / €170.00 / £115.00
**APS Member Price: $129.97**

**Nathan Zuntz: His Life and Work in the Fields of High Altitude Physiology and Aviation Medicine**
Edited by: Hanns-Christian Gunga
This book focuses on the life and work of Nathan Zuntz (1847-1920), a German physiologist, who made significant contributions to high altitude physiology and aviation medicine.
ISBN: 9780123747402
List Price: $89.95 / €65.95 / £44.99
**APS Member Price: $58.47**

**Molecular Imaging FRET Microscopy and Spectroscopy**
Edited by: Ammasti Periasamy and Richard Day
Starting from the basics, the chapters guide readers through the choice of probes to be used for FRET experiments and the selection of the most suitable experimental approaches to address specific biological questions.
ISBN: 9780195177206
List Price: $108.00 / €87.95 / £60.99
**APS Member Price: $70.20**

**A Life of Ernest Starling**
Edited by: John Henderson
John Henderson’s biography of Ernest Starling gives breadth and vitality to a subject that in the hands of a less gifted biographer could have been primarily an account of research projects and their data.
ISBN: 9780195177800
List Price: $67.95 / €54.95 / £38.99
**APS Member Price: $44.17**

The FASEB Journal

The Journal of the Federation of American Societies for Experimental Biology

The FASEB Journal has become a preferred venue for the latest research reports and reviews of epigenetics, iRNA mechanics, histone acetylation, nitric oxide signaling, eicosanoid biochemistry, angiogenesis, tumor suppressor genes, apoptosis, cytoskeletal function, human stem cell research, and more!

PAYMENT OPTIONS—Please ✔ check desired subscription type in price chart above.

☐ VISA (13 or 16 Digits) ☐ MasterCard (16 Digits) ☐ EuroCard ☐ American Express ☐ Discover

☐ Check or Money Order (U.S. Currency Only—Drawn on U.S. Bank)

Keep students learning in and out of the lab

Empower your students to complete their experiments both in and out of the laboratory. LabTutor 4 Teaching Suite provides remote access to experiments, so students can spend less time in the lab and more time understanding their science.

**Increase student engagement and productivity**
With over 100 interactive experiments, 500 exercises and real-data acquisition, LabTutor engages students as it guides them through experiment exercises, analysis and reporting.

**Enrich understanding with case studies**
Enable students to establish a link between physiology and clinical practice using LabTutor Medical Laboratories. Includes real patient videos and data.

**Online prep, reporting and revision**
LabTutor’s Online component lets students prepare, report and revise outside the lab by accessing their own experiment data. Educators can simply log in anywhere to review finished experiments and reports.

**Simplified administration for educators**
Central administration lets you import student lists, assign experiments to specific courses, update experiments on lab computers with a single action and much more.
