Advances in Physiology Education

Editorial Manager, Mark L. Goodwin (301) 634-7072
Submitted and Accepted Manuscripts: Daniel Pisconte (301) 634-7248
Copyediting and Production: Journal Supervisor, Kathleen Pleet (301) 634-7222
Editorial Art Manager, Eric Pesanelli (301) 634-7973
Permissions: Penny Ripka (301) 634-7251
Reprints: Carolyn Villemez (301) 634-7964
E-Mail: publicat@the-aps.org

Peer Review FAX: (301) 634-7243

Executive Director, Martin Frank, PhD (301) 634-7118
Director of Education Programs, Marsha Matyas, PhD (301) 634-7132
Director of Finance, Robert T. Price (301) 634-7160
Subscriptions: Lucia Tayiel (301) 634-7191
Science Policy: Alice Ra’anan (301) 634-7105
Marketing: Sue Sabur (301) 634-7015
Meetings/Confs: Linda Allen (301) 634-7967
Membership: Georgia Stine (301) 634-7171
Communications (media inquiries): Donna Krupa (301) 634-7209

Editorial FAX: (301) 634-7241

APS Home Page: http://www.the-aps.org
For instructions on how to prepare your manuscript to conform to APS style, please see http://www.the-aps.org/publications/i4a/index.htm
Manuscripts to Advances in Physiology Education are submitted online through www.apscentral.org. Mandatory Submission Forms and Fee Forms customized to your manuscript become available on completion of the submission process. For extra copies of blank forms, see http://www.the-aps.org/publications/journals/index.htm
If you use a blank form, please write the manuscript number, title, and author’s name CLEARLY on the form.

For your career in science, there’s only one

Introducing myIDP:
A career plan customized for you, by you.

- The first and only online app that helps scientists prepare their very own individual development plan.
- Recommended by leading professional societies and the NIH.
- Developed by scientists at FASEB, UCSF, and the Medical College of Wisconsin in collaboration with AAAS and Science Careers, with support from the Burroughs Wellcome Fund.

myIDP is a science-specific career planning tool that helps you
- Gain insights into how to achieve your goals.
- Analyze your strengths and weaknesses.
- Identify potential obstacles and how to overcome them.
- Learn about the many paths you can take as a scientist.
- Create an individualized plan to achieve your career goals.

CALL FOR NOMINATIONS

For the Arthur C. Guyton Educator of the Year Award

The Arthur C. Guyton Educator of the Year Award supported by Elsevier ($1,000 cash prize, plus reimbursement of the advanced registration fee, a framed, inscribed certificate, up to $750 in travel reimbursement to the Experimental Biology meeting and a complimentary ticket to the Section Dinner) recognizes a full-time faculty member of an accredited college or university and member of the APS who has independent evidence of: (1) excellence in classroom teaching over a number of years at the undergraduate, graduate, or professional levels; (2) commitment to the improvement of physiology teaching within the candidate’s own institution; and (3) contributions to physiology education at the local community, national or international levels. The awardee is requested to write an essay on his/her philosophy of education for publication in The Physiologist.

The typical nominee will have shown excellence in teaching and have made significant contributions in student advisement, graduate education, and/or curriculum design and reform at their institution. The activities that distinguish a candidate in the rankings include outreach activities at the state, national, or international level; contributions to education through APS activities; peer-reviewed educational journal articles; and widely disseminated publications such as commercially produced textbooks, lab manuals, or software. The award winner is announced at the APS Business Meeting during Experimental Biology.

Nominations Process: Each nominee must be nominated by a member of APS. All candidate materials must be uploaded no later than January 8, 2013. To upload documents, please visit the APS Award Module at the-aps.org/awardapps/login/index.cfm. Finalists will be contacted and asked to provide further information.
Stand Up for Science!

We Support Scientists By:
- Advocating for funding for biological research
- Advancing policies that facilitate research and reduce regulatory burden
- Improving the environment for science training and education

FASEB, the voice of biological and biomedical researchers, represents 26 scientific societies and over 100,000 scientists and engineers.

Join our e-Action Alert
Help us communicate with Congress on key research issues by visiting www.faseb.org/StandUp to join our e-Action list and keep up with the latest policy news.

FASEB thanks APS and its members for their support
If you’re not a member of APS, join now. Benefits include reduced fees for scientific meetings, conferences, and journals; access to continuing education, professional development and career resources; and opportunities to contribute to science policy, advocacy, and public education.

How to keep students learning in and out of the lab

Empower your students to learn and understand science anytime, anywhere. LabTutor 4 Teaching Suite starts by inspiring students in the classroom and then continues engaging students 24/7 with interactive online content.

**Increase student engagement and productivity**
With over 100 experiments, 500 exercises (including Medical and Applied Nursing) and real data acquisition, LabTutor engages students as it guides them through experiment exercises, analysis and reporting.

**Pre lab, post lab and revision**
LabTutor Online lets students do pre-lab preparation, post-lab reporting and revision outside the lab with access to their own experiment data. Educators can simply login anywhere to check student progress and reports.

**Simplified administration for educators**
Centralized administration lets you import student lists, assign any combination of experiments to a specific list or course, and update experiments on lab computers with a single action.
